Project

Game Portal Blog

Technologies: Node.js, Express.js, EJS, Bootstrap, CSS, Render.

- Developed a simple game portal blog where users can add, edit, and delete posts.
- Used EJS templates with Bootstrap to make the UI responsive and clean.
- Deployed the project on Render → <https://game-portal-blog.onrender.com>

Book Vault

Technologies: Node.js, Express.js, PostgreSQL, Axios, EJS, Bootstrap.

Developed a web app to manage personal book collections with full CRUD functionality.

Integrated the Open Library API for fetching book details. Used PostgreSQL as the database for storage and retrieval.

Typing Prowess

Domains: HTML, CSS, JAVASCRIPT.

Created a simple yet engaging typing game using HTML, CSS, and JavaScript to help users practice and improve their typing speed and accuracy. The app gives you real-time feedback, highlights typing mistakes, and shows performance like words per minute (WPM) and accuracy.
